Project Information

Project Name **Temecula Valley Basin Groundwater Management**

Implementing Organization	Rancho California Water District
Secondary Implementing Organization	
Proposed Start Date	4/1/2013
Proposed End Date	4/1/2015
Project Scope	Develop the Temecula Valley Basin (Bulletin 118 Basin No. 9-05) GWMP in accordance with the Groundwater Management Act (AB 3030), through a multi-agency, stakeholder process, resulting in an adopted Plan that will guide the management of the Basin on a sustainable safe yield basis.
Project Description	Develop a GWMP through the implementation of eleven (11) Tasks including the following: 1) a public hearing and Board resolution for intention to develop a plan; 2) establish a Plan Development Team for management and technical oversight of the Plan development; 3 and 4) establish a Plan Outreach Team to develop a comprehensive outreach program to involve and inform stakeholders and the general public; 5) conduct data collection and review of existing Basin data and determine data gaps and additional research/studies needed; 6) identify projects and programs to meet goals and objectives of the Plan; 7 and 8) prepare draft and final plans and circulate for comment; 9) conduct a public hearing and adopt the Plan by resolution of the RCWD Board of Directors; 10) submit the plan to DWR and required recharge map to local planning agencies; and 11) perform grant administration and reporting as required.
	Prepare a GWMP to bring together multiple court judgments, agreements, and groundwater production reports, to study and manage the Basin on a sustainable safe

Project Objective		yield basis; develop programs to improve water quality and optimum basin production; establish ideal strategies for existing/future facilities; identify recharge methods; develop programs to address critical water shortages; evaluate programs to address development impacts and septic system use; and foster programs for community outreach.

Section : Applicant Information and Question's Tab**APPLICANT INFORMATION AND QUESTION'S TAB****Q1. Applicant Information**

Provide the agency name, address, city, state, and zip code of the applicant submitting the application.

Rancho California Water District 42135 Winchester Rd., Temecula, CA 92590 P.O. Box 9017, Temecula, CA 92589-9017

Q2. Proposal Description:

Provide a brief abstract of the Proposal. This abstract must provide an overview of the proposal including the main issues and priorities addressed in the proposal. Within the abstract, please describe how the proposal relates to the GWMP's BMO's.

Rancho California Water District (RCWD) proposes to develop the Temecula Valley Basin (Basin) GWMP, identified as Groundwater Basin Number 9-05 in the Department of Water Resources Bulletin 118. Since the Basin is currently managed by RCWD under judgments, permits, agreements through cooperation with multiple agencies, development of an AB 3030-compliant GWMP would organize these documents into one formally-adopted plan to manage the Basin for its safe production and its quality. The GWMP will focus on the following goals and objectives: Goals - Provides a safe, reliable, and sustainable local water supply; reduce dependence on imported water; improve groundwater management; and ensure water quality; enhance integrated regional water management. Objectives Guide the management of the Basin on a sustainable safe yield basis; develop programs and projects to improve water quality and optimum basin production; ideal strategies for existing and future facilities; alternate methods for recharge; programs to address critical water shortages; evaluation of programs to address development impacts and septic system use; and programs for community outreach. The GWMP would incorporate and enhance the existing Basin modeling as well as advance Basin studies, including: basin management objectives; monitoring protocols; monitoring and management of groundwater levels; monitoring of inelastic land surface subsidence; groundwater quality; and surface flows and quality. Development of the GWMP is proposed using a collaborative, stakeholder process lead by RCWD with a Plan Development Team and a Plan Outreach Team that include representation from entities the Basin area. In addition, other stakeholders and the general public will be invited to participate, and at a minimum, will be provided with information during development of the GWMP about its importance and progress. RCWD recognizes the importance of their participation in the process and development of the GWMP.

Q3. Project Director:

Provide the name and details (including email) of the person responsible for executing the grant agreement for the applicant. Persons that are subcontractors to be paid by the grant cannot be listed as the Project Director.

Matt Stone General Manager Rancho California Water District 42135 Winchester Road, Temecula, CA 92589 (951) 296-6900 stonem@ranchowater.com

Q4. Project Manager:

Provide the name and contact information (including email) of the Project Manager from the applicant agency or organization that will be the day-to-day contact on this application.

Denise Landstedt Senior Water Resources Planner Rancho California Water District 42135 Winchester Road, Temecula, CA 92589 (951) 296-6916
landstedtd@ranchowater.com

Q5. Additional Information:

Based on the region's location, what is the applicable DWR region office (Northern, North Central, South Central, or Southern)? The following link can be used to view each DWR region office boundaries:

http://www.water.ca.gov/groundwater/groundwater_basics/gw_contacts_info.cfm

- 1) ☐ Northern Region
- 2) ☐ North Central Region
- 3) ☐ South Central Region
- 4) ☒ Southern Region

Q6. Additional Information:

Provide the Date of GWMP Adoption, if any, and list the pursuant Water Code Section or other legal Authority in which it was adopted.

The Temecula Valley Basin GWMP is anticipated to be adopted March 2015, and no later than April 2015.

Q7. Additional Information:

Provide a list of documents that support and indicate collaboration with other local public agencies with regard to the management of the affected groundwater basin (e.g., MOUs, MOAs, JPAs, adoption of a GWMP, recognition of county ordinances in permitting processes, or party to a groundwater basin adjudication order).

1. Permit for Diversion and Use of Water, Amended Permit 7032, Temecula Creek/Santa Margarita River for use in Vail Lake and District M&I by Rancho California Water District, April 22, 2009 and 1946 Application to Appropriate Unappropriated Water.
2. Groundwater Management Agreement, Rancho California and Pechanga Band of Luiseno Mission Indians, December 21, 2006
3. Cooperative Water Resource Management Agreement between Camp Pendleton and Rancho California Water District, March 2002
4. Recommended Ground Water Production, Fiscal Year July 1, 2011 through June 30, 2012, Rancho California Water District, January 14, 2011, Geoscience Support Services, Inc.
5. Santa Margarita River Watershed Annual Watermaster Report, Water Year 2009-10, Charles W. Binder, Watermaster, September 2011
6. Metropolitan Water District of Southern California, Final Groundwater Assessment, Study, September 2007

Q8. Additional Information

Name the entity(ies) providing the fund(s) reported in the above Budget section under the category "Other Contribution". If there are no "Other Contributions" Please answer this question with, "No Other Contributions".

No other contributions.

Q9. Eligibility:

List the urban water suppliers that will receive funding from the proposed grant. Please provide the agency name, a contact phone number and email address. Those listed must submit self certification of compliance with CWC §525 et seq. and AB1420, see Attachment 10. If there are none, so indicate.

The Rancho California Water District is the urban water supplier that will receive funding from the proposed grant. Contact for this urban water supplier is as follows:
Denise Landstedt Senior Water Resources Planner Rancho California Water District 42135 Winchester Road, Temecula, CA 92589 (951) 296-6916
landstedtd@ranchowater.com Self-certification of compliance with California Water Code §525 et seq. and AB 1420 have been submitted.

Q10. Eligibility:

Have all of the urban water suppliers, listed in Q9 above, submitted complete 2010 UWMP to DWR? If not, explain why. Have those plans been verified as complete by DWR? If not, explain current status.

The Rancho California Water District submitted a complete 2010 Urban Water Management Plan to DWR on July 22, 2011, and received a letter from DWR dated November 10, 2011 confirming the Plan has addressed the required legislative elements and verified complete by DWR.

Q11. Completeness Check:

Have all of the fields in the application been completed?

Yes

Q.11. Completeness Check (cont)

If no, please explain. If yes, answer this question with "NA".

N/A
